VOICE OF THE EDITOR

Impressive Students - Future CPAs?

The winners of the AICPA's Project Innovation: Start Here, Go Places. Competition of Creative Excellence have been announced. This year's competition called for teams of high school students to take on the roles of TV writers and producers and create a concept for a new show by developing a proposal, a production budget, and a short video preview they would pitch to a network. Start Here, Go Places. is an interactive website for high school and community college students interested in exploring accounting as a viable career path. These students are pretty impressive!
